

# PTI EUROPA A/S CELEBRATES 25TH ANNIVERSARY

PTI Europa A/S Newsletter

May 2016

## 25 Years of constant improvement!

Everything began in 1991 as a part of the German HFH group.

On the edge of the Coxbul Moore, ball bearings took over the former school building and one warehouse soon followed the other. The stock now spreads over an area of 6,000 m<sup>2</sup> high-bay shelves. At first "Made in Germany", then followed by the American partnership, and finally to "Made in Worldwide".

PTI Europe A/S is one of the world's manufacturers with the widest product range which is sold in more than 50 countries.

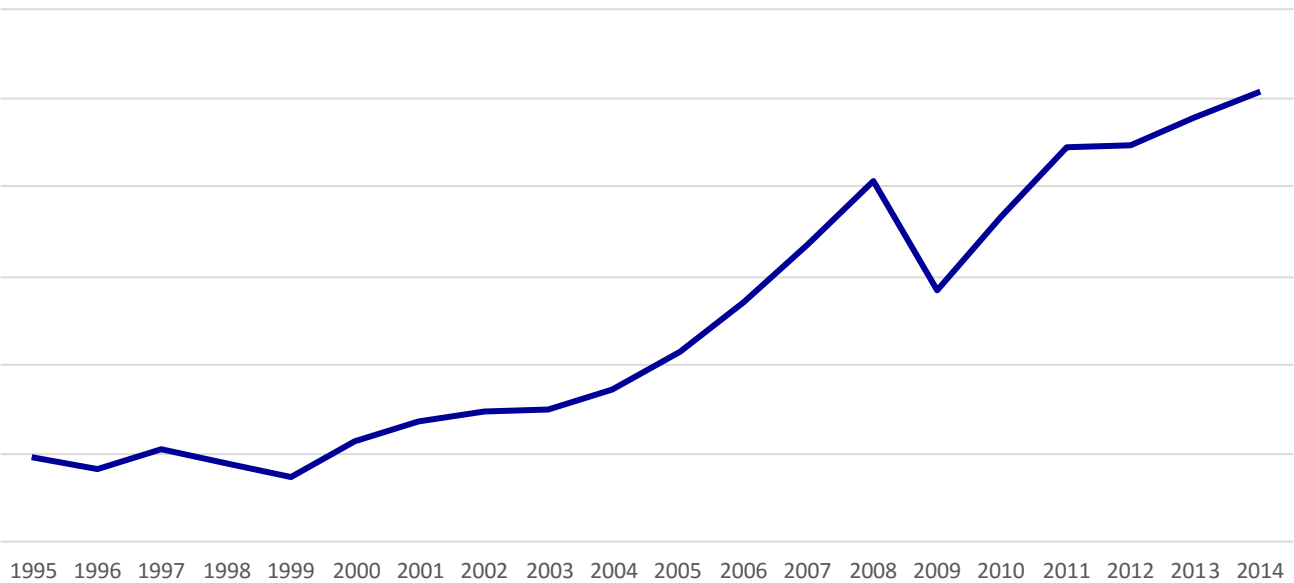

Strong partnerships with a vast network of dealers is one of the qualifications that has formed PTI to one of the most efficient and versatile suppliers of roller bearings and drive technology.

We now know – we owe it to our long-term cooperation with our partners, employees, prospects and loyal customers for our existence today.

In this sense, we want to say "THANK YOU!" – and we look forward to the next 25 years!

**Picture, top:** Managing director and pioneer Jürgen Lorenzen is working with his own hands on the newly acquired building. After a 2-year training period at the world center of ball bearings in Schweinfurt, Germany, the story took its beginning and started the road to success.

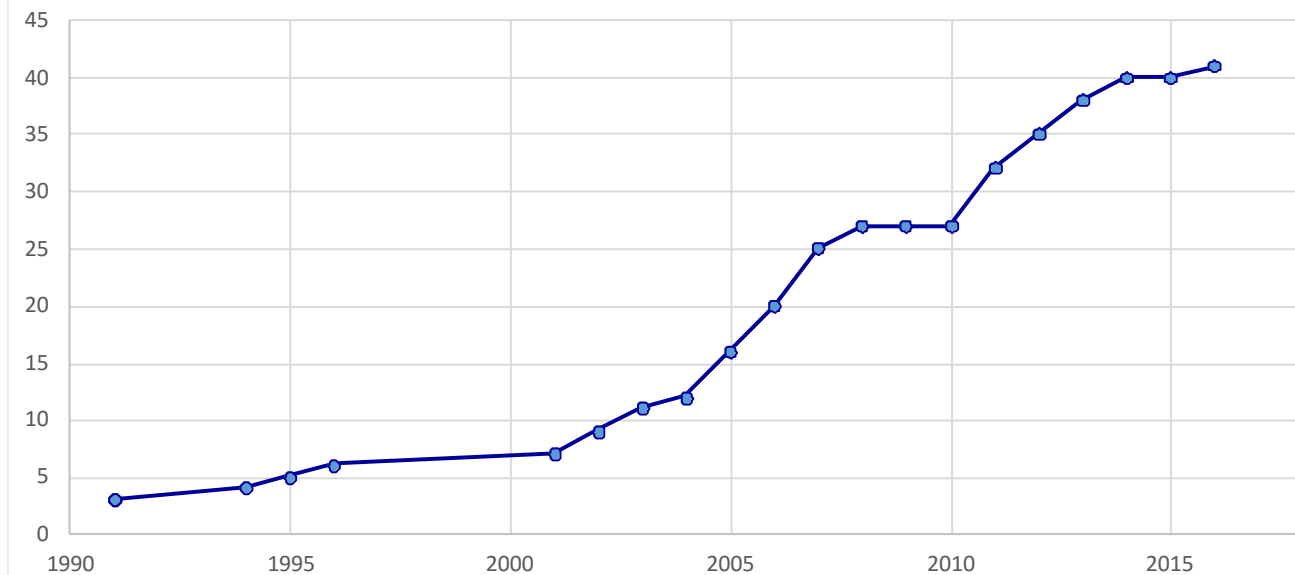

## Development Turnover 1991 - 2016

In the past 25 years, we have of course experienced and mastered crises. For example the Euro crisis and a major fire in 2001, where our entire warehouse fell victim to the flames. Who know us knows; those who are fighting for succes stand on solid ground.

## Development of Employees Højer und Støvring

A fundamental part of the company is our highly qualified staff with a current total of 45 employees. We are proud to have: 3 employees with a seniority of 20 years, 14 employees with a seniority of 10 years – and over the next 2 years follows another 7 more 10-year anniversaries.

## We have worked according ISO 9001 ever since

All though PTI has always worked on the basis of the ISO mind set, like for example only to purchase from certified suppliers, we are now proud to announce that we officially have received our own ISO 9001 certification the 06.05.2014.

The main goal with our ISO certification is to work even harder in order to achieve the delivery of goods in the right quality, the right quantity and to the right delivery time.

We also hope to achieve an even better collaboration with our customers by forth going improvements of our products, delivery security, services and processes.

# Information about the PTI legal rights

PTI Europa A/S was founded in 1991 and was originally a part of the German Finkenrath corporation. After the bankruptcy of Finkenraths parent company, PTI formed a cooperation with P.T. International Corp., USA. This cooperation came to an end in 2005 and we continued with the name PTI Europa A/S and with the brand PTI on the Danish and European market.

PTI Europa A/S is the owner of the international valid trademark IR 773 708 "PTI" from 2001 and the European trademark EM 003 564887 from 2004.

The PTI trademark is a quality brand and we produce products which are an alternative to a long list of other brands on the market.
